CONTENTS

NUMBER 43

E. J. WILLIAMS, R. J. JOHNSTON, and J. DAINTY: The Electrical Resistance and Capacitance of the Membranes of *Nitella translucens* 1

R. G. HILLER: Synthesis of Citrulline and Arginine in *Chlorella pyrenoidosa* 15

R. G. HILLER and C. P. WHITTINGHAM: The Synthesis of Amino-acids in *Chlorella* in Light and Dark. I 21

Y. MOSSBERG, A. M. MAYER, and L. W. MAPSON: Inhibition of Glycolysis by Adenosine Triphosphate 29

P. J. SYRETT, S. M. BOCKS, and M. J. MERRETT: The Assimilation of Acetate by *Chlorella* vulgaris 35

R. PRASAD and G. E. BLACKMAN: Studies in the Physiological Action of 2, 2-Dichloropropionic Acid. I 48

E. K. NG and L. J. AUDUS: Growth-regulator Interactions in the Growth of the Shoot System of *Avena sativa* Seedlings. I . 67

J. K. DOODSON, J. G. MANNERS, and A. MYERS: The Distribution Pattern of ^{14}Carbon Assimilated by the Third Leaf of Wheat . 96

A. J. PEEL: Tangential Movement of ^{14}C-labelled Assimilates in Stems of Willow 104

T. A. MANSFIELD and O. V. S. HEATH: Studies in Stomatal Behaviour. X 114

J. M. HOPKINSON: Studies on the Expansion of the Leaf Surface. IV 125

W. D. P. STEWART: The Effect of Available Nitrate and Ammonium Nitrogen on the Growth of Two Nitrogen-Fixing Blue-Green Algae 138

O. L. STEIN and G. M. FORRESTER: The Effect of High Concentrations of Heavy Water on Root Morphogenesis in *Zea mays* . 146

G. T. DALY: Leaf-surface Wax in *Poa colensoi* 160

(THE LATE) C. R. HANCOCK, H. W. B. BARLOW, and H. J. LACEY: The East Malling Coleoptile Straight Growth Test Method . 166

J. S. COLE and C. A. R. SYMES: Measurement of Temperature and Humidity in Tobacco Plots in Rhodesia 177

M. C. POWELL and O. V. S. HEATH: A Simple and Inexpensive Integrating Photometer 187

NUMBER 44

R. M. SPANSWICK and E. J. WILLIAMS: Electrical Potentials and Na, K and Cl Concentrations in the Vacuole and Cytoplasm of *Nitella translucens* 193

M. C. POWELL and O. V. S. HEATH: A Simple and Inexpensive Integrating Photometer 187

NUMBER 44

R. M. SPANSWICK and E. J. WILLIAMS: Electrical Potentials and Na, K and Cl Concentrations in the Vacuole and Cytoplasm of *Nitella translucens* 193

J. R. S. LAWTON and O. BIDDULPH: The Accumulation of Translocated Material at the Sieve Plate of *Dioscorea sansibarensis* Pax 201

D. A. COULT: Observations on Gas Movement in the Rhizome of *Menyanthes trifoliata* L., with Comments on the Role of the Endodermis 205

L. R. G. VALADON: Carotenoid Pigments of some Lower Ascomycetes 219

V. KAHN: Glycine as a Methyl Donor in Dimethyl-β-Propiothetin Synthesis 225

H. D. KUMAR: Streptomycin- and Penicillin-induced Inhibition of Growth and Pigment Production in Blue-Green Algae and Production of Strains of *Anacystis nidulans* Resistant to these Antibiotics 232

M. M. R. K. AFRIDI and E. J. HEWITT: The Inducible Formation and Stability of Nitrate Reductase in Higher Plants. I . 251

J. BARKER and L. W. MAPSON: Studies in the Respiratory and Carbohydrate Metabolism of Plant Tissues. XV . . 272

J. BARKER, R. JAKES, T. SOLOMOS, M. E. YOUNIS, and F. A. ISHERWOOD: Studies in the Respiratory and Carbohydrate Metabolism of Plant Tissues. XIV 284

L. REINHOLD and Y. EILAM: The Interrelation between the Effects of 2, 4-Dinitrophenol and of Substrate Concentration on the Rate of Exogenous Respiration 297

B. J. DEVERALL and J. M. DALY: Comparison of some Processes in Homogenates and sections of Healthy Bean Leaves Resistant and Susceptible to the Bacterial Halo-blight Disease . . 308

B. ORCHARD and O. V. S. HEATH: Carbon Assimilation at Low Carbon Dioxide Levels. I 314

K. E. COCKSHULL and O. V. S. HEATH: Carbon Dioxide Effects on Auxin Responses of Coleoptile Sections 331

P. A. THOMPSON: The Effect of Applied Growth Substances on Development of the Strawberry Fruit. I 347

T. A. VILLIERS and P. F. WAREING: Dormancy in Fruits of *Fraxinus excelsior* L. 359

J. R. WILSON and W. W. SCHWABE: Growth and Dormancy in *Lunularia cruciata* (L.) Dum.. 368

R. G. HURD: The Effect of Restricted Germination during Vernalization on First Leaf Length of Winter Rye . . 381

M. HOLDSWORTH: The Leaf Movements of Soybean, a Short-day Plant 391

I. MANTON: Observations on the Fine Structure of the Zoospore and Young Germling of *Stigeoclonium* 399

NUMBER 45

D. J. F. BOWLING and P. E. WEATHERLEY: Potassium Uptake and Transport in Roots of *Ricinus communis* 413

D. J. F. BOWLING and R. M. SPANSWICK: Active Transport of Ions across the Root of *Ricinus communis* 422

E. R. PAGE and J. DAINTY: Manganese Uptake by Excised Oat Roots 428

M. G. PITMAN: The Effect of Divalent Cations on the Uptake of Salt by Beetroot Tissue 444

J. MOORBY: The Foliar Uptake and Translocation of Caesium . 457

R. THAINE: The Protoplasmic-Streaming Theory of Phloem Transport 470

K. W. JOY: Translocation in Sugar-beet. I. Assimilation of $^{14}CO_2$ and Distribution of Materials from Leaves . . 485

C. R. SLACK and W. J. WHITTINGTON: The Role of Boron in Plant Growth. III. The Effects of Differentiation and Deficiency on Radicle Metabolism 495

B. V. MILBORROW: 2, 6-Dichlorobenzonitrile and Boron Deficiency 515

D. W. NEWMAN: Effects of Iron Deficiency on Chloroplast Lipids 525

I. R. MACDONALD and G. G. LATIES: A Comparative Study of the Influence of Salt Type and Concentration on $^{14}CO_2$ Fixation in Potato Slices at 25° C and 0° C 530

D. D. DAVIES: Effect of Methionine on the Metabolism of Disks of Storage Tissue 538

A. H. HALEVY: Effects of Gibberellin and Growth-retarding Chemicals on Respiration and Catalase Activity in Various Organs of Cucumber Seedlings 546

A. D. WORSHAM, D. E. MORELAND, and G. C. KLINGMAN: Characterization of the *Striga asiatica* (Witchweed) Germination Stimulant from *Zea mays* L. 556

L. K. WIERSUM: Sterile Culture of Excised Tomato Roots in Sands of Different Grain Size 568

D. H. MAGGS: Growth-rates in Relation to Assimilate Supply and Demand. I. Leaves and Roots as Limiting Regions . . 574

TOMASZ WODZICKI: Photoperiodic Control of Natural Growth Substances and Wood Formation in Larch (*Larix decidua* D.C.) 584

MALCOLM B. WILKINS and MARY HELEN M. GOLDSMITH: The Effects of Red, Far-red, and Blue Light on the Geotropic Response of Coleoptiles of *Zea mays* 600

W. A. SOUTHORN: A Complex Sub-cellular Component of Widespread Occurrence in Plant Latices 616

F. A. L. CLOWES and B. E. JUNIPER: The Fine Structure of the Quiescent Centre and Neighbouring Tissues in Root Meristems 622

C. G. GUTTRIDGE and P. A. THOMPSON: The Effect of Gibberellins on Growth and Flowering of *Fragaria* and *Duchesnea* . . . 631

T. F. NEALES: A Comparison of the Boron Requirements of Intact Tomato Plants and Excised Tomato Roots grown in Sterile Culture 647

S. N. SAXENA: Phytase Activity of Plant Roots 654
